Build page flipping books with PDFs

About Flip Book Maker for PDF

Flip Book Maker for PDF is page-turning creating software that can convert PDF files into flash flip book with page-flipping animation effects. And you can choose different themes from different templates to make your flip book more lively and attractive. The optional output formats (HTML, Zip, EXE, Mac App and burn to CD) enable you to read them online or offline. You can add background image, music, bookmark and watermark to the flipbook; set access authorization for viewing, downloading and printing. What's more, the flipbook can be shared via e-mail, Facebook, Twitter, Digg and other social networks.

Note: This product is distributed on a "Try before-you-buy" basis. All features described in this documentation are enabled. The registered version doesn't insert a watermark in your generated page-flipping eBooks.
